

Florida Public Transportation Agencies: Clever Devices API & GTFS Reference

This document provides a comprehensive technical reference for Florida public transportation agencies that utilize the Clever Devices system (specifically BusTime) for real-time ETA and transit tracking. For each confirmed agency, this guide details the direct GTFS static feed download URLs, Clever Devices BusTime API documentation links, GTFS-RT real-time feed URLs (where available), and public ETA portal URLs.

Clever Devices BusTime Developer API Overview

The Clever Devices BusTime Developer API (Version 3) is a RESTful web service that allows developers to request and retrieve real-time data directly from the BusTime system ¹. Registered third-party developers can make HTTP GET requests and receive XML or JSON responses.

Common API Endpoints:

- `/bustime/api/v3/gettime` - Retrieve current system time
- `/bustime/api/v3/getvehicles` - Retrieve vehicle locations
- `/bustime/api/v3/getroutes` - Retrieve the set of routes
- `/bustime/api/v3/getdirections` - Retrieve directions for a route
- `/bustime/api/v3/getstops` - Retrieve stops for a route and direction
- `/bustime/api/v3/getpatterns` - Retrieve geo-positional points and stops
- `/bustime/api/v3/getpredictions` - Retrieve arrival predictions
- `/bustime/api/v3/getservicebulletins` - Retrieve service bulletins

Authentication:

All requests to the API must be accompanied by a valid API key using the `?key=` parameter. Keys are typically obtained by creating an account on the agency's specific BusTime portal and requesting developer access ¹.

Agency Technical Details

1. Pinellas Suncoast Transit Authority (PSTA)

PSTA serves Pinellas County, including St. Petersburg and Clearwater.

- **Public ETA Portal:** <https://ridepsta.net/bustime/home.jsp> ²

- **BusTime API Documentation:** https://ridepsta.net/bustime/apidoc/docs/DeveloperAPIGuide3_0.pdf 3
- **GTFS Static Feed URL:** https://www.psta.net/latest/google_transit.zip 4
- **GTFS-RT Feeds:** PSTA's real-time data is primarily accessed via their BusTime API rather than standard GTFS-RT protobuf endpoints.

2. Lee County Transit (LeeTran)

LeeTran provides public transportation services in Lee County, Florida.

- **Public ETA Portal:** <https://bustime.leegov.com/bustime/home.jsp> 5
- **BusTime API Documentation:** https://bustime.leegov.com/bustime/apidoc/docs/DeveloperAPIGuide3_0.pdf 6
- **GTFS Static Feed URL:** <https://www.leegov.com/leetrans/Documents/GTFS.zip> 7
- **GTFS-RT Feeds:** Real-time data is accessed via the BusTime API.

3. Miami-Dade Transit (MDT)

Miami-Dade Transit operates the Metrobus, Metrorail, and Metromover systems in Miami-Dade County.

- **Public ETA Portal:** <https://transitbustime.miamidade.gov/> 8
- **BusTime API Documentation:** https://transitbustime.miamidade.gov/bustime/apidoc/docs/DeveloperAPIGuide3_0.pdf 9
- **GTFS Static Feed URL:** http://www.miamidade.gov/transit/googletransit/current/google_transit.zip 10
- **GTFS-RT Feeds:** Miami-Dade Transit provides GTFS-RT feeds via Swiftly APIs 10.
 - *Trip Updates:* <https://transitbustime.miamidade.gov/bustime/gtfsrt/gtfs-rt-trip-updates> (Requires authentication/API key)
 - *Vehicle Positions:* <https://transitbustime.miamidade.gov/bustime/gtfsrt/gtfs-rt-vehicle-positions> (Requires authentication/API key)

4. Gainesville Regional Transit System (RTS)

Gainesville RTS serves the City of Gainesville and the University of Florida.

- **Public ETA Portal:** <https://riderts.app/> 11
- **BusTime API Documentation:** https://riderts.app/bustime/apidoc/docs/DeveloperAPIGuide3_0.pdf 12

- **GTFS Static Feed URL:** http://go-rts.com/gtfs/google_transit.zip ¹³
- **GTFS-RT Feeds:** Real-time data is accessed via the BusTime API.

5. Central Florida Regional Transportation Authority (LYNX)

LYNX provides public transportation services for Orange, Seminole, and Osceola counties (Orlando area).

- **Public ETA Portal:** Integrated into the official LYNX apps and <http://gtfsrt.golynx.com/gtfsrt/> data directory ¹⁴.
- **BusTime API Documentation:** http://gtfsrt.golynx.com/bustime/apidoc/docs/DeveloperAPIGuide3_0.pdf ¹⁵
- **GTFS Static Feed URL:** http://gtfsrt.golynx.com/gtfsrt/google_transit.zip ¹⁴
- **GTFS-RT Feeds:** LYNX provides direct, unauthenticated access to their GTFS-RT protobuf files ¹⁴:
 - *Trip Updates:* http://gtfsrt.golynx.com/gtfsrt/GTFS_TripUpdates.pb
 - *Vehicle Positions:* http://gtfsrt.golynx.com/gtfsrt/GTFS_VehiclePositions.pb
 - *Service Alerts:* http://gtfsrt.golynx.com/gtfsrt/GTFS_ServiceAlerts.pb
